Work Experience

Dec 2011 - Feb 2012 | *Internship of Web Front-end Development Engineer in Baidu.com*

Responsibility description: I am responsible for the implementation of Web pages about user activities and maintaining the Web pages of the social forum called "Tieba" in Baidu company (the biggest search engine company in China). The main techniques used are JavaScript, jQuery, HTML and CSS, and some basic PhotoShop skills dealing with pictures. My works mainly focus on developing the design of UE to the real Web pages.

Project Experience

Feb 2012 | *Upgrade of A Weekly Report Management System*

Responsibility description: This is an update task for the existing weekly report management system. This is an internal tool for project managers to report each project's progress. My tasks are to use the Ajax technique to complete the partial refresh of pages and do an autocomplete plugin of staff's name.

Feb 2012 | *Valentine's Day*

url: http://tieba.baidu.com/tb/zt/2012_valentine_day/valentine.html

Responsibility description: According to the design of UE, I am responsible for the implementation of Web page by using HTML, CSS, and JavaScript. Also, I worked for the development of the entrance from the forum.

Jan 2012 | *Sandbox Usage System*

Responsibility description: Sandbox is a technique to establish an development and test environment with the online data and makes modification transparent from the users. There are more than a dozen of modules which can be deployed on sandboxes and almost thirty developers use the limited sandboxes, which leads to the conflicts during the usage. My work is to develop an management system to solve the conflicts. I mainly used the PHP and Python because the deployment are all based on Linux environment.

Jan 2012 | *Chinese New Year*

url: http://tieba.baidu.com/tb/zt/2012newyear/newyear.html

Responsibility description: This Web page mainly used for a lottery activity of Chinese new year and also show some information about that activity. I implemented the page's layout, dynamic effect like scrolling list, and some logic part of drawing lottery.

Dec 2011 | *Tieba's Eighth Anniversary*

url: http://tieba.baidu.com/tb/zt/8/user_activity.html
http://tieba.baidu.com/tb/zt/8/official_activity.html
http://tieba.baidu.com/tb/zt/8/activity_awards.html

Responsibility description: This is my first work during my internship period, which is to implement three static Web pages. My work is to develop the page according to the psd files, which are the design of UE.

Scholarships and Certificates

Sep 2008 Gainning the second prize of state reward in CUMCM (China Undergraduate Mathematical Contest in Modeling).

Mar 2008 Oracle Database 10g Administrator Certified Associate

Personality

- Self-motivated, with demonstrated initiative to work alone or as part of a team.

- Willingness and ability to adapt to new technologies and a quick learner.

- High productivity and good communication skills
